Application Success Stories

Alumero has made the decision to invest in a powder coating plant as part of continuous effort to provide highest quality services and products to their customers. They have decided to integrate a Gema System into the new powder coating plant after carefully studying the main suppliers in the Market. Gema offered best quality and most advanced solutions with regards to

their priorities, such as quality of surface finish, stability of the coating process, quick and contaminations free color change, transfer efficiency and quality of local support to name the most important.

„With the Gema equipment now in operation for one year we can confirm our expectations were fully met. The solid knowledge base of

the local Gema distributor combined with their extensive support in all segments of our coating plant have been crucial for a quick and successful operations kick off”, says the head of operations Mr. Boris Šlamberger.
