A modular platform for precise manual coating

Manual booths from Gema are ideal for the full spectrum of manual coating applications, from small batch production to high-volume manufacturing. Their modular design ensures a tailored solution for every requirement, while ATEX-compliant components provide the highest level of operational safety.

Your global partner for high quality powder coating

Gema

Exhaust Air Units

Modular platform

The manual booths are based on a modular structure, allowing them to be configured precisely to a wide range of production requirements. Both booth types (ClassicOpen and ClassicStandard) can be combined with various types of exhaust air units. This means, that depending on requirements, overspray powder can be collected in a powder hopper, a fluidised powder hopper for further powder transport, or a powder collector. This intelligent combination of standardized modules creates a perfectly matched coating solution for every manual application.

Flexible application

Gema's manual booths are the right solution for every application: for beginners and experienced users or as a stand-alone solution for small to medium-sized coating jobs. Choose between a compact model and an open version for larger parts. The extraction capacity can also be adapted to your specific requirements: 4000 Nm³/h is sufficient for smaller coating tasks, while 6600 Nm³/h is ideal for larger workpieces.

Compliance and safety label:
ATEX compliance guarantees highest level of safety

Manual Booths

Configuration possibilities

	Exhaust Air Unit		ClassicStandard		ClassicOpen
Filter cartridges	2	4	2	4	4
Extraction capacity [Nm ³ /h]	4000	6600	4000	6600	6600
Control unit left or right side	✓	✓	✓	✓	✓
Powder collecting options					
Powder collector	–	✓	–	✓	✓
Powder hopper - standard	✓	✓	✓	✓	✓
Powder hopper - fluidized	✓	✓	✓	✓	✓

Gema Switzerland

Your global partner for high quality powder coating

Take advantage of our expertise and experience from more than 50 years of electrostatic powder coating applications. From simple hand coating through to fully automated powder coating, we offer solutions that meet the demands and requirements of customers around the world in a wide range of industrial sectors. A global service network ensures you always get professional support, at any time and any place!

Gema is part of Graco Inc. Our goal is to help our customers to increase their productivity while creating attractive, long-lasting products. Our experts continually set new standards in the surface coating industry.
