## Company Profile

This company is one of the most renowned manufacturers and suppliers of generators in the country. Due to increased demand, the customer planned to upgrade the current powder line with a Gema system.

## Company Expectations

The company decided to remove the old booth due to many problems and planned to replace the booth with Gema system. Their main requirement is a cleaner environment with maximum efficiency in powder recovery, increased productivity and reduced maintenance.

## Keys to Success

A Stainless steel booth with OptiGun GA03 automatic guns and ZA08 reciprocators. The company now gets maximum powder recovery, consistent coating results and a clean environment with no powder spillage outside the booth.
