Application Success Stories

TECHO, a.s., is one of the leading European manufacturers and suppliers of office furniture and is the largest company in the Czech Republic, which provides comprehensive services in the field of turnkey commercial interior construction (so-called fit-out solutions) for a wide range of multinational and local firms in Europe and the Middle East. Since 2008, the company has been

part of the Dutch group Royal Ahrend BV, which is one of the three largest manufacturers of office furniture in Europe. The clientele of the company consists of important bank houses, financial institutions, international companies, government organizations and public institutions. Its branches can now be found in the UK, Slovakia, Poland, Austria, Hungary, Romania, Croatia, Bulgaria, Russia, Georgia, Ukraine and also

China and the United Arab Emirates.

TECHO s.a. is very satisfied with the innovative Gema technology, the quality of application, operation, low spare parts costs and efficiency. We have an average waste powder recycling rate of up to 9% of the total quantity that is issued even after color changes.
